

WHY INVEST IN RPAC?

Simply put, investing in RPAC is an investment not only in your industry, but also in your future.

Where does my investment go?

GAR uses your voluntary RPAC investment to support candidates for the Georgia General Assembly, for statewide office and for local elected offices across the state. In addition, a portion of your investment goes toward helping local boards with issues impacting their areas.

How do they choose who to give to?

We support candidates who fight for our interests, regardless of party. RPAC's priority is electing REALTOR® Champions who understand our issues and combat harmful legislation. If you know any REALTOR® Champions in your area, let us know!

Here are just a few of our legislative victories:

- In 2025, we supported legislation that will require out-of-state residential landlords to have in-state staff or an in-state real estate broker to manage their properties.
- In 2025, we defeated legislation that would have allowed local governments to create a rental registry for all rental properties.
- In 2024, we supported a bill that requires ID verification for the filing of deeds. It also provides protections for victims of false quitclaim deeds, allowing them to sue for damages and to recoup their attorney's fees.
